Professional Experience

CRM Specialist **May 2026 – Present**
Dubai Phone

- Manage customer relationships, update customer records, and track customer cases using Odoo CRM.
- Handle customer inquiries, complaints, and after-sales requests while ensuring timely and professional resolution.
- Analyze customer issues, identify the root cause, and coordinate with internal teams to solve problems effectively.
- Follow up with customers after issue resolution to ensure satisfaction and improve the overall service experience.
- Prepare CRM reports, monitor recurring issues, and support business goals through accurate customer data.

Customer Service Representative (WE Account) **Mar 2026 – May 2026**
xceed

- Assisted customers with service, billing, technical, and account-related inquiries.
- Recorded customer interactions, complaints, and case updates accurately using CRM systems.
- Resolved customer problems by explaining solutions clearly and escalating complex cases when needed.
- Maintained quality standards, response accuracy, and customer satisfaction targets.

Flutter Developer **May 2022 – April 2025**
Freelance

- Developed responsive Flutter applications for Android using Dart, Firebase, REST APIs, and third-party integrations.
- Built user-focused mobile features with clean UI structure, smooth navigation, and reliable application performance.
- Implemented state management using Provider, Bloc, and GetX based on project requirements and app complexity.
- Integrated Firebase services, analytics tools, crash reporting, and backend functionality to support production apps.
- Debugged production issues, fixed application bugs, and managed app releases on Google Play Store.

Software Tester **Oct 2021 – Jan 2022**
Rescody

- Identified bugs, risks, and software anomalies, then documented and reported them clearly to development teams.
- Collaborated with developers and engineers to improve software quality, reliability, and defect prevention.

Android Developer **Jul 2017 – Mar 2022**
Freelance

- Developed and maintained Android applications from requirements analysis to testing and post-launch support.
- Tested, updated, and documented application features to improve functionality, usability, and code quality.

Technical Support Specialist **Jun 2015 – Aug 2019**
Maadi Smart Computer Mall

- Diagnosed and resolved hardware and software issues while providing clear technical support to users.
- Supported hardware installations, system updates, software setup, and general troubleshooting tasks.

Education

Al-Azhar University **Sep 2018 – Jul 2022**
Bachelor of Islamic Studies in Urdu

Selected Projects

Islamic Tafsir Applications Suite

- Developed multiple Tafsir apps including As Saadi, Al Muyassar, Al Tabari, Al Qurtubi, Al Baghawi, Ibn Katheer, Al Wasit, and Al Tanwir.
- Added Quran index, search, sharing, font control, color customization, and reading experience features.
- Focused on smooth navigation, clean content structure, and a user-friendly Islamic reading experience.

Smart Quran Test

- Built a Quran memorization testing app with tests by Surah, Juz, Verse, Hizb, Rub, and Page.
- Added three difficulty levels: Normal, Average, and High.
- Designed the app to help users review memorization in a structured and simple way.

Quran Test for Azhari

- Developed a Quran testing app for Azhari students across Primary, Preparatory, Secondary, and University stages.
- Organized Quran content and test flows according to different student levels.

Sira Al Bahtheen

- Developed an educational Tajweed app presenting Tajweed rules in a clear and accessible way.
- Designed the content flow to support students, teachers, readers, and reciters.
